

What have we been learning in Early Years?

STAR OF THE WEEK

I have been very kind by sharing the toys and playing in the role play area.

Well done for inviting your friends to join the pretend Birthday party and taking turns to blow the candles. Ms Anjali

I have been super resilient, working hard to read and write CVC words.

Fantastic learning! Ms Beth

PRACTICAL LIFE ACTIVITIES

Practical life activities are so important in the Early Years to prepare our learners for a variety of real life skills in the future. Confidence in these skills allows our learners to become independent and to access a range of new opportunities. Pouring, transferring and holding equipment safely allows them to be able to do tasks such as cooking.

CELEBRATIONS: BIRTHDAYS

The learners have been baking this week and made cupcakes to learn more about how some people celebrate their birthdays. They added candles and sang Happy Birthday.

ENJOYMENT FOR WRITING

Some of our learners have been applying their phonics to help them write birthday shopping lists. They have been listening out for the sounds and carefully recording them.

h a t s hats
c a r d s cards

BIRTHDAY ROLE PLAY

The learners have had lots of fun pretending that it is their birthday and wearing the birthday hats and pretending to blow out the birthday candles. How do you celebrate birthdays in your house?

What have we been learning in Early Years?

STAR OF THE WEEK

I am star of the week for being a fantastic communicator and sharing about home and weekend activities I did with my family.

I am star of the week for being respectful and working hard to make good choices when playing with other learners in the class.

"Well done for expressing how you feel and why during the morning meeting"

"Fantastic work." Ms Anjali

Ms Anjali

MAKING SALT DOUGH

The learners have been making shapes with salt dough. Learners mix their own salt dough by mixing, patting and kneading the dough and then using pressing and pinching movements to form their shapes.

BUILDING A MOSQUE

As apart of our *Festivals and Celebrations* unit we have been learning about Ramadan this week and how people celebrate around the world. We had fun building a Mosque using foam bricks and blocks

MARK MAKING AND WRITING

The learners have been mark making in Early Years, We practised making zig zag, lines and other learners focused on forming letters and writing some CVC words:

mat can
big hop

SOUND HUNT IN THE GARDEN

On Monday, the Learners had so much fun hunting for the different sounds in the garden. When they found the sounds they had to say the sound and think of a word that starts with that sound. 'w' water 's' stop.

COUNTING AND ADDING

The learners have been practising their counting skills and extending their knowledge to understand number bonds up to 10.
