

# What have we been learning in MP1?

## ★ STAR OF THE WEEK ★

I am star of the week for being so resilient and adjusting to my new class routines. I have also shown great cooperation with my new team.

I am star of the week starting for Year 2 in such a positive, respectful, and principled way.

"What a great start to the year!" Mr Luke

## PE

This week MP1 created their PE class agreement with Mr Greg so that their year of learning would be successful. They talked about the importance of good listening and being safe.

## COMING UP NEXT WEEK...

ASAs start Monday 18<sup>th</sup> August

## ENTRY POINT

Years 1 and 2 had great fun exploring all things linked to learning and their brains during their Entry Point for their first unit, *Brainwave!* They played memory games and explored their senses as well as many other fun activities!

## BRAINWAVE

In Learning Journey, MP1 practised their cooperative learning skills forming new teams to make brains!

Our Personal goal for this LB is Adaptable. We have been thinking about the changes that a new year brings and learning to be flexible when things change or don't go the way that we had planned

# What have we been learning in MP1?

## ★ STARS OF THE WEEK ★

I am star of the week for settling in so quickly to Year 1 and remembering to use kind and respectful words to adults and other learners who have been upset.

"Well done, Keep it up!" Ms Lily

I am star of the week for being a risk-taker and a thinker in all of my learning!

"You have made a brilliant start at iCAN" Mr Luke

## LITERACY

Years 1 have started their new literacy text, The Bog Baby. They had fun using a range of resources to create their own bog baby models, recalling the descriptive language in the story to help guide them. They also worked collaboratively to create their own story setting using the loose part materials.

## MATHS

This week in maths Year 2 have been learning to use number lines with increasingly bigger numbers. They went out into the garden to use a giant number line and the hands-on place value resources.

## COMING UP NEXT WEEK...

Tuesday 26th Family Coffee Morning  
Communication 7.45-8.45am

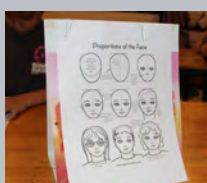

## PE

Year 2 had great fun pretending to be different animals. They used their bodies to slither, jump, crawl, and stretch, experimenting with how creatures move. This playful activity not only encouraged creativity and imagination but also helped develop coordination, balance, and spatial awareness.

## ART

At iCAN, each year in art begins with self-portraits, allowing us to see the learner's artistic progression as they grow.

Our Personal goal for this LB is Adaptable. We have been thinking about the changes that a new year brings and learning to be flexible when things change or don't go the way that we had planned
