

# What have we been learning in MP3?

## ★ STAR OF THE WEEK ★

I have been a good communicator when developing my writing.

*You have been adaptable when coming back to iCAN and being part of our Year 5 team. Well done- keep challenging yourself!*

Ms Becky

I have shown such principled and respectful behaviour in class this week, showing incredible focus and drive with my work and always being ready to learn.

## LEARNING JOURNEY

In MP3 the learners have been learning through the lens of Design Technology and Innovation to plan and design a control panel for a space ship. They incorporated real and imaginary components in their design but will go on to design and make a real control panel using their knowledge of electricity and circuits.

## SWIMMING

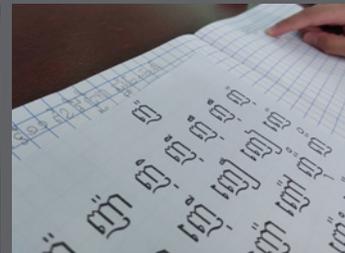

MP3 have been practising their backstroke using the floats to focus on their arm rotation to refine the stroke.

## KHMER

Year 6 have been learning different Khmer consonants and how adding the symbol above changes its pronunciation.

ញ៉ក់ទីងឃើងបានរៀនអំពីអក្សរ (ញ) ដែលប្រើជាមួយសញ្ញាមូសិកន្ត (្ក) នៅពីលើដើម្បីប្តូរសំលេងទៅជា (ញ)។

## COMING UP...

MP3 Residential 17<sup>th</sup> -21<sup>st</sup> November  
Friday 28<sup>th</sup> November- Learning Reviews issued

## LITERACY

Year 6 finished their class text, *Holes* and were given the choice of three different tasks to show their understanding of the novel. They were able to write extensively to add a chapter, write in role or to extend the story.

## MUSIC

Year 6 have been trying to learn a three part ensemble using their voices to create the different melodies. This was very challenging as they had to keep the rhythm and tune whilst also hearing the other group's parts!

Our Personal goal for this learning block is Risk Takers. The learners will be applying this personal goal on the upcoming residential where they will be stepping out of their comfort zone, trying new foods, making new friends and attempting new skills.

# What have we been learning in MP3?

## RESIDENTIAL TO SIEM REAP

MP3 have returned from their incredible residential to Siem Reap. Some of the best learning happens outside of the classroom...

## TEMPLE CYCLING

We started our week with an amazing, exhausting cycling trip that took us around the Angkor Wat complex. The learners were absolutely incredible, showing such resilience and determination.

## GETTING CRAFTY

On Tuesday we visited Rokhak where we were taught how to weave with water hyacinth. Wednesday included a visit to the lotus farm where we were shown how valuable this beautiful plant is. We got to make flower paper, lotus silk bracelets and lotus pod bands. We even tried lotus tea! So delicious. What a wonderful experience.

## APOPO AND PHARE

## COMING UP...

Friday 28<sup>th</sup> November- Learning Reviews issued

## BUTTERFLIES AND WAKE PARK

Our final fun filled day started with beautiful butterflies and ended with a delicious dinner. We can't wait to get back and tell you all about it.

Our Personal goal for this learning block is Risk Takers. The learners will be applying this personal goal on the upcoming residential where they will be stepping out of their comfort zone, trying new foods, making new friends and attempting new skills.
