

LB1 WEEK 4

MP1 Entry Point: A Day in the Life

MP1 had a wonderful time getting in to role on Monday for their Entry Point. They became chefs, gardeners, shop workers, office staff, doctors and much more in this imaginative and immersive session. It was a great way for the learners to think about all the different jobs there are and what these might look like.

CAMBODIAN SOCIAL STUDIES: MP1

Year 1 have been learning about kindness and responsibility in our local community. They have been talking about people who help take care of our school and decided to volunteer to help our gardener tidy up the leaves in the garden. They worked cooperatively to sweep the leaves and collect them into the basket. Lovely respect and kindness from our little learners.

ICAN PLAY PE WITH MR GREG

The learners had such fun dodging and sprinting with Mr Greg on Tuesday during the noodle game. They had to find creative ways to avoid the noodle to capture the cone on the other side.

PRACTICAL LIFE ACTIVITIES

INDEPENDENT EXPLORATION AND COOPERATIVE DISCOVERY

MP2 EXIT POINT: BRAINWAVE

As part of their exit point to show different metacognitive strategies that they have learned, the learners worked in teams to complete different challenges. One of the challenges required them to be thinkers and build a tower that was taller than Ms Abbey!

MP3 EXIT POINT: BRAINWAVE

To conclude their unit: Brainwave, the MP3 learners became the LF's last Friday morning and applied the different strategies that they had been learning about in class to teach the adults a new skill. Up on the roof Ms Rosie, Mr Tom and Ms Beverly learnt a range of skills from football to basketball. The learners were excellent coaches and used lots of growth mindset feedback to help the LF's get better at the different skills.

YEAR 5 SWIMMING

On Tuesday Year 5 were practising a range of drills to help them refine and improve their technique to become more efficient in the pool.

MP2 ENTRY POINT: FOOTPRINTS FROM THE PAST

On Tuesday, MP2 took a trip to Coconut Park III for their new unit Entry Point: *Footprints from the Past*. They completed a treasure hunt activity around the park and identified the different dinosaurs on their checklist. The learners were very principled and respectful throughout the trip.

MP3 ENTRY POINT TO LENG DEI

On Wednesday, MP3 had an immersive Entry Point at Leng Dei Community Garden where they were Nature Investigators. They worked cooperatively to explore the garden where they observed, collected samples, took photos and made sketches and rubbings. They showed great respect for the garden and were wonderful enquirers when asking questions to deepen their knowledge of nature.

COMING UP NEXT WEEK...

-Please inform Mr Luke if you would like to be a guest speaker as part of the: A Day in the Life of (MP1) learning in class.

ASAs start on Monday 31st August.
Please collect your child from the correct site at 3:35pm

UPDATES...

Please remind your child that there should not be any trading/ swapping of Pokémon cards at school.

OUR STARS THIS WEEK

I have been super happy and adaptable when settling into my new school environment.

I have been a fantastic thinker, being so imaginative when coming up with exciting story lines and fun games to play!

I have been a resilient learner and a great communicator. I keep trying even when things feel challenging.

I have been a thinker and so resilient in my learning this week. I have been trying hard to use my phonics in my writing.

I have been so resilient in my maths! I always try my best and never give up!

I have been so resilient this week! I have made super choices at school and impressed everyone on the trip and in swimming.

I have been consistently principled and respectful. Even when challenged, I am kind to others and committed to my learning.

I have been demonstrating outstanding inquiry skills during our trip to Leng Dei . I asked brilliant questions and truly thought like a scientist!
