

MP3 SEED INVESTIGATION

MP3 have been amazing enquirers and investigators this week when learning about different fruit and their seeds. They discussed their theories as to why some plants have larger seeds whilst others are much smaller and thought about if this affects the size of the plants.

MP2 AND MP3 GUIDED READING

Reading looks different in each session! Role play helps the learners gain a good comprehension of the story while sequencing aids their recall. In MP3 the learners ask and answer questions to check their understanding of the text. They identify unknown words and complete activities that help them apply their comprehension skills and word knowledge.

YEAR 6 MATHS

Year 6 were wonderful thinkers and communicators when discussing the different methods they can use to solve multiplication problems. They can identify why an answer might be wrong and were able to explain their thinking.

YEAR 1 WELLBEING

The Year 1 learners have been learning to identify and talk about their feelings and have begun to be able to identify their needs. Monorom the Mood Monster visited their class to talk about her big feelings. Year 1 were able to say what her needs might be. She was feeling sad so the learners decided she needed a hug!

YEAR 4 ART

Learners explored Picasso's abstract style, experimenting with shape, colour and perspective to create their own unique portraits.

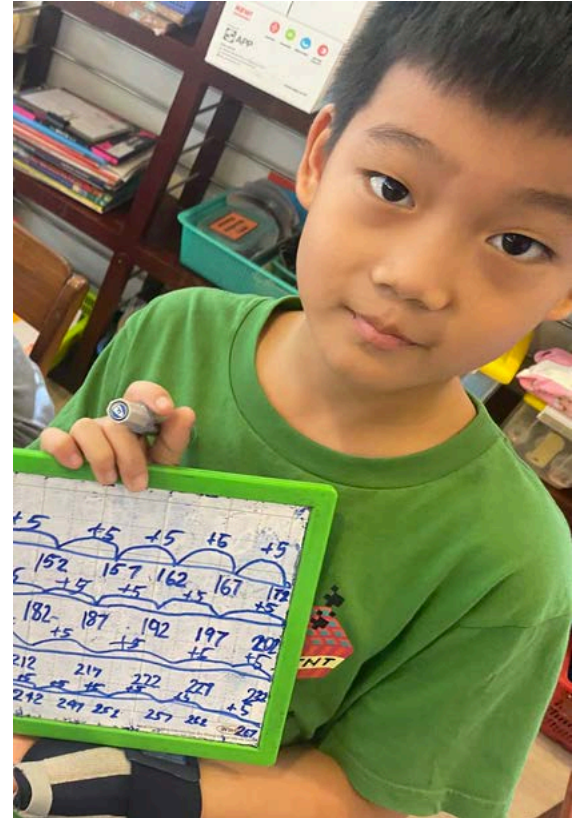

LET'S GO OUTSIDE!

Swinging, biking, building...So much of our learning takes place in our beautiful gardens!

YEAR 3 MATHS

Everyone learns in different ways so our learners are given the chance to show their learning in different ways whilst deepening their understanding of number and place value.

MP1 - A DAY IN THE LIFE

We would like to say a big thank you to all of the families who have come in to talk to the Year 1 and 2 learners about their jobs. It was an amazing experience for the children to hear all about the different things that you do!

COMING UP ...

MP3 Residential meeting
Tuesday 15th September
3pm in Year 5 classroom

-
Family Drop-in:
Tuesday 15th September
2:30-3pm

UPDATES...

MP3 Enrichment tasks have
been given out to Year 5 and 6.
Due date: 23rd October

OUR STARS THIS WEEK

I have been super happy and adaptable when settling into my new school environment.

I have been very communicative and can talk about my learning in detail. I made amazing repeated patterns with leaves and twigs.

I have been a respectful and principled learner. I am always happy to help tidy up after play, wait patiently for my turn during mat time, and kindly remind my friends to follow our class agreement.

I have been so resilient and brave since joining iCAN. I have been polite and friendly, done some great learning, and made lots of new friends!

I have been showing great resilience and risk-taking in the swimming pool when putting my face in the water! I am growing into a confident swimmer.

I have been so resilient in Literacy this week, my reading, phonics work, and especially my writing have really impressed everyone!

I have been creative and a great communicator by sharing my designs with MP3. Plus, my cooperative and positive attitude has been of great value to my table team and the class.

I have been an outstanding enquirer. I asked thoughtful questions and shared fresh ideas that sparked engaging discussions at my table throughout our learning journey
