

LB1 WEEK 7

COMPOSTING - YEAR 5

Year 5 got stuck in to the iCAN compost and applied their Science knowledge to ensure that it had a sufficient balance of dry carbon materials (browns) and wet nitrogen rich (greens). They used dried leaves from the garden to provide the compost with the carbon it needed and thoroughly mixed it to get lots of oxygen into the mixture.

WAKE UP SHAKE UP!

Wake up Shake up allows both our learners and our team a much needed opportunity to to move their bodies before they begin a day of learning. It's a great way to get the blood pumping and wake up the brain before lessons begin. Why not join us next week from Tuesday to Friday at 7:20 in our amphitheatre- families and younger siblings welcome!

AFTER SCHOOL ACTIVITIES

YOUNG ENQUIRERS:

The learners had so much fun making and racing their own animals with Ms. Swarna in their ASA session on Monday.

ART CLUB

In art club the learners have been using acrylic paints on canvases to create amazing night scenes.

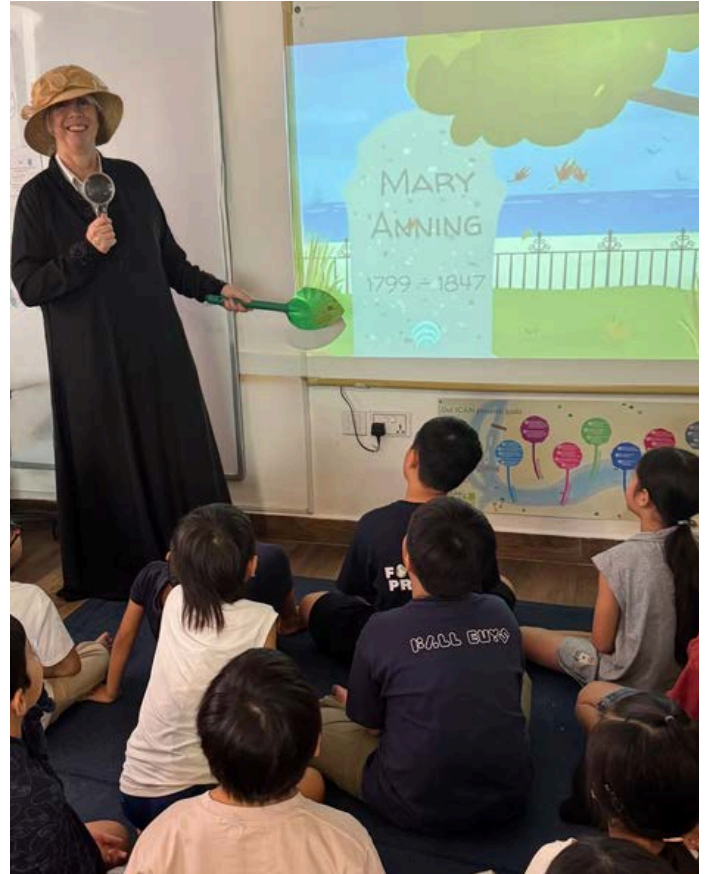

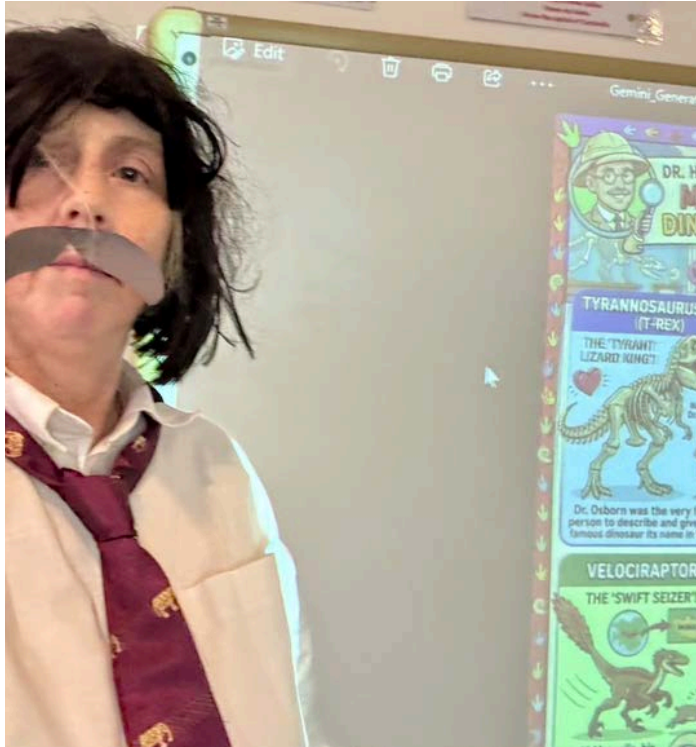

ICAN PLAY

The learners have been making the most of the cooler weather and spending lots of time outside, climbing, mark-making, digging and scooting in the garden. Our outside space is the perfect place for our learners to improve their physical development, take safe risks, and build their gross motor skills.

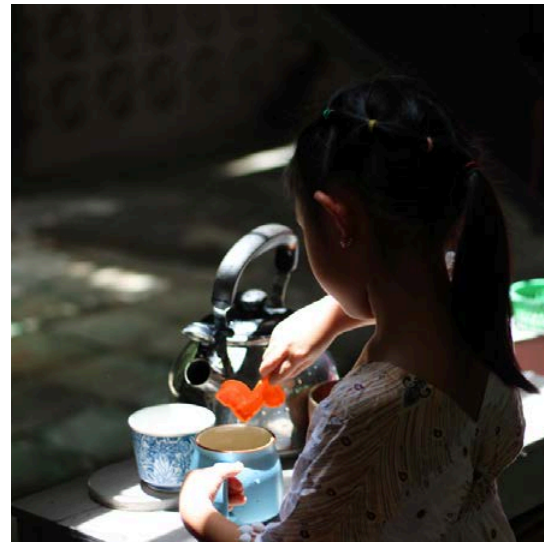

LEARNING JOURNEY

Meet the famous paleontologists, Mary Anning and Henry Fairfield Osborn, who joined MP2 in their Learning Journey this week- not really! Ms. Tracy dressed up to make the learners' history learning more engaging and immersive - we think it worked!

LUNCH TIMES

The learners have been having so much fun role-playing in the shared space at lunch times. From making cups of tea to cooking soup, the possibilities are endless! These open-ended play opportunities allow our learners to use their imagination, develop their cooperation and develop practical life skills such as pouring control and tool use.

KHMER AT ICAN

Khmer across the school is differentiated to meet the needs of the learners. From learning to identify key vocabulary to reading and writing in Khmer script.

BRAIN BREAKS

Everyone needs a stretch and some movement after a long session of learning! Team work makes this even more fun as we wake up our brains and bodies with a short break!

YEAR 3 PE

This week, Year 3 used both Pétanque and capture the flag to develop their ability to make a plan, execute it and then evaluate it as a team.

YEAR 6 MATHS

Learning doesn't always look the same for everyone in a class at iCAN. Year 6 understand what level of challenge to set themselves and work independently, with a learning partner or with the learning facilitator.

FAMILY DROP IN

COMING UP ...

Tuesday 22nd September:
Learning Team Planning Day
No school for learners
- No ASAs on Tuesday 22nd

UPDATES...

Please note the Year 4 Celebration of
learning will now take place in week
10 on Thursday 8th October

OUR STARS THIS WEEK

I have been demonstrating wonderful resilience and kept on trying even when the blocks wouldn't fit in the bucket shape holes

I have been so amazing and adaptable for joining in all the activities with positive energy and enthusiasm and embracing the learning with grace despite the language barrier.

I have been such a resilient learner and a thinker. I am always ready for challenges and use my creative thinking to find different ways to approach things.

I am always such a kind, respectful, helpful, and focused learner. I set such a lovely example to everyone in class!

I have been a super communicator with others, by expressing my needs and feelings respectfully. I have been so adaptable in my maths by explaining my thinking!

I have been a great thinker and incredibly principled and resilient with my story writing this week! My sentence structure and use of adjectives make my stories come to life.

I have been a fantastic thinker - especially in Learning Journey where I gave thoughtful and enquiring ideas.

I have been a wonderful communicator. My detailed and informative book summary of Operation Shipwreck showed genuine thought, clarity, and care.
