

LB1 WEEK 8

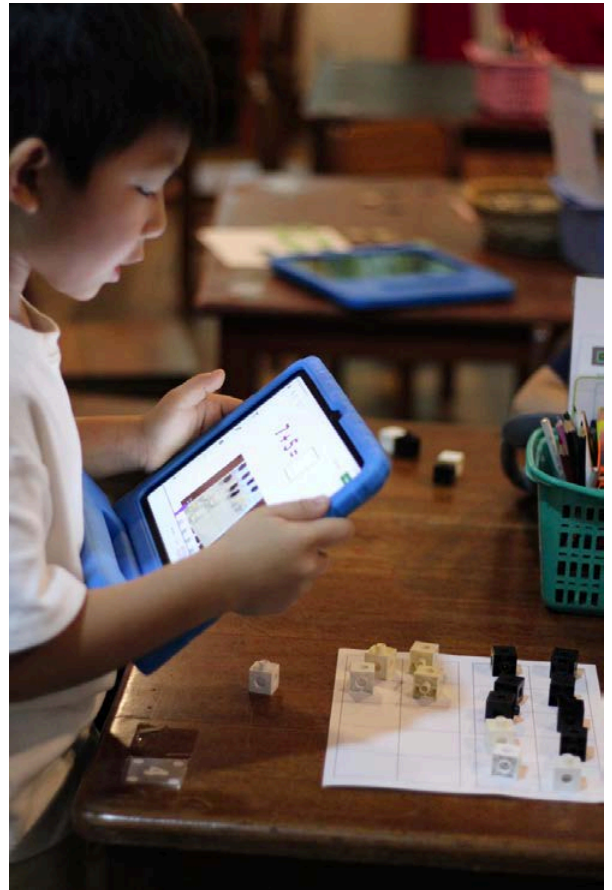

A DAY IN THE LIFE- GEOGRAPHY

What a wonderful community we have around us at iCAN. MP1 had the great opportunity to visit **WCS Cambodia** and **All Ears Cambodia**. A huge thank you for both organisations for welcoming us and teaching our learners about what you do!

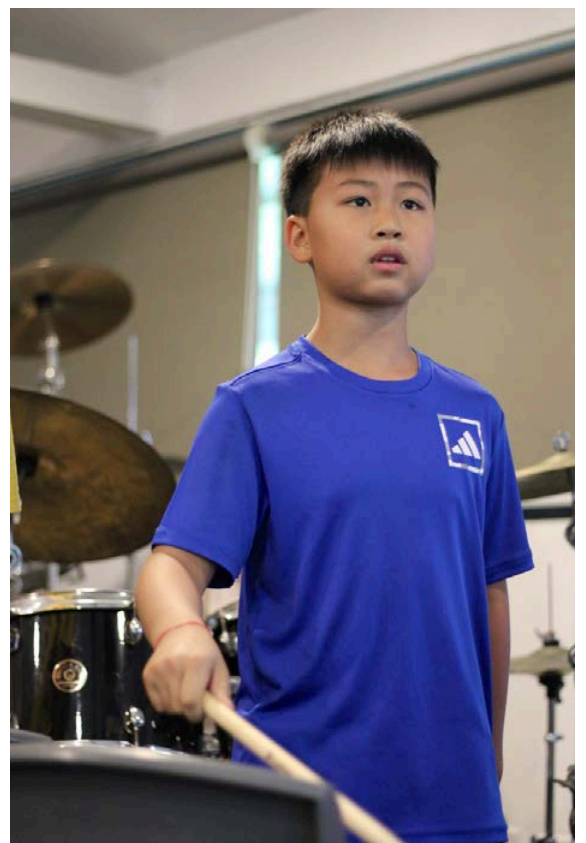

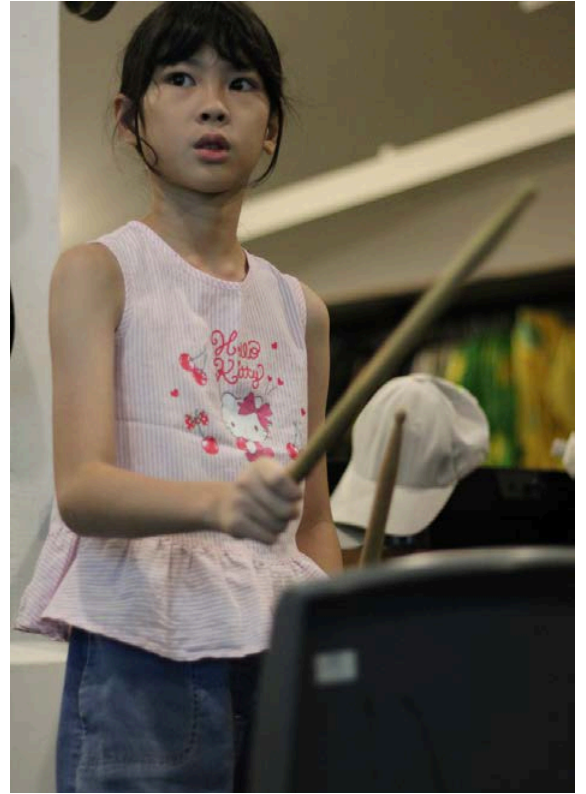

MATHS

Year 2 were really getting to grips with their addition strategies this week, using different manipulatives to help represent numbers and bridge 10. They recorded their understanding using videos and audio clips on SeeSaw - don't forget to check out their fantastic learning!

CHAIR DRUMMING

Year 6 filled the Main Site with the rhythmic beats of their drumming in this week's music lesson. They learnt about dynamics when playing but ultimately love it loud!

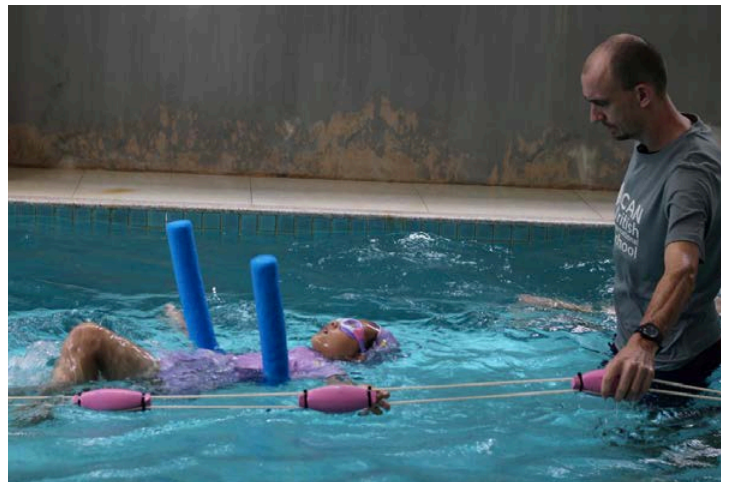

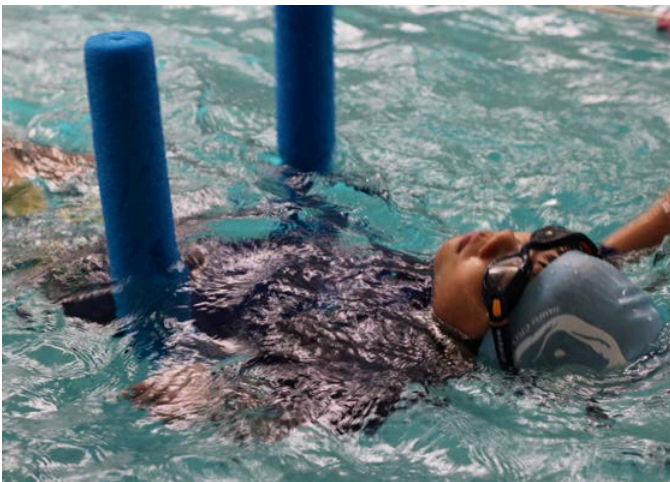

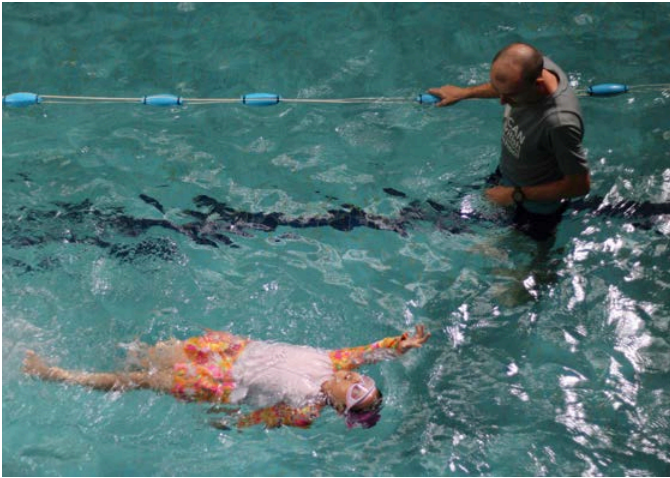

ICAN PLAY!

It's been a bit of a wet week but that hasn't stopped our learners from exploring, using their imaginations and finding ways to be creative.

SWIMMING

Our Year 3 learners are being so resilient with their swimming. They have used the noodles to help with their bouyancy when swimming on their backs.

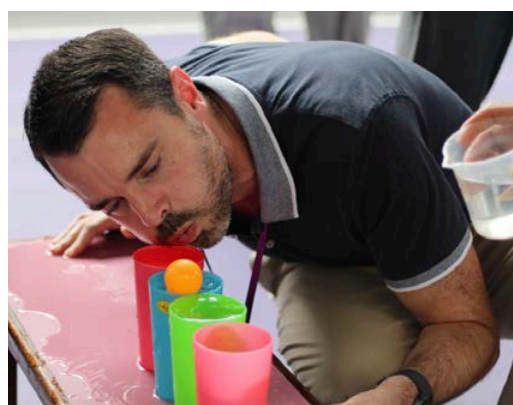

LET'S READ!

Our Learning Facilitators try to hear all of their learners read within the week and check in with them about what they are reading. It's a great chance for our learners to have some 1:1 time with their LF too and to have a time when they really feel heard.

ICAN PROFESSIONAL DEVELOPMENT

What do your LFs, LSAs and other iCAN adults do when you're not at school? We learn and work together too! Mr Sophak organised some fun team-building games for the whole iCAN team. It was a great chance to cooperate, have fun and learn more about each other - just like you do at school. We hope you enjoy seeing the iCAN team in action!

COMING UP ...

Thursday 1st October- MP3 Exit Point in the space

Thursday 8th October: Year 4 COL

-

12th-16th October: Pchum Ben Break

-

LB2 Week 1 ASA round 2 starts

UPDATES...

Please check emails and the telegram groups for any updates about roadworks around the iCAN area.

OUR STARS THIS WEEK

Joining a new school can be a big change, but I have been incredibly adaptable and jumped straight into the iCAN Play routines.

I have been a wonderful Communicator. I love to talk about my learning, explain how I solve problems, and share my ideas confidently with my friends.

I have been a great communicator and a thinker. I confidently share my ideas and use my thinking skills to make connections and contribute to our learning.

I have been such a sensible and principled learner who loves a challenge and always gives my very best. I am a wonderful learner!

I have been a fantastic communicator and expressed my fun and creative ideas. I shared super cool facts about Japan and wrote a descriptive paragraph about a Croissantsaurus!

I have been so principled in everything that I do! My amazing effort and love for learning shines through in every lesson.

For my empathy, kindness and consideration in all I do. I have been especially effective at being a great team member and working cooperatively with others.

I have been such a resilient learner. When things get challenging, I never lose heart. I turn every mistake into a helpful lesson and keep trying with courage and determination.
