LB2 WEEK 1

MP1 -EXIT POINT

To celebrate the end of their unit, MP1 shared the iCAN Town they had created with learners in Years 4 and 5. We were blown away by the incredible detail, effort and creativity they had put into their work, as well as the confidence with which they spoke about their learning. Well done, MP1!

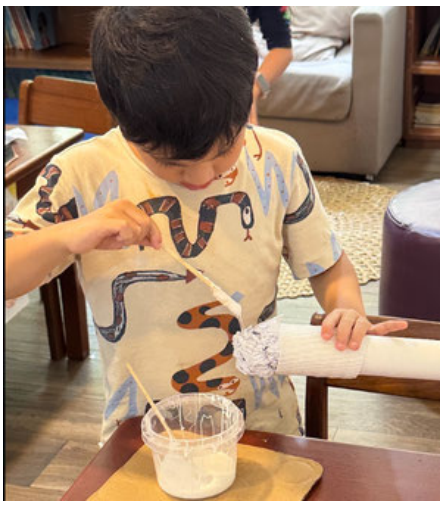

DESIGN TECHNOLOGY

Collaboration and communication was key when designing and making these incredible dinosaurs! MP2 followed their planning and developed their skills of using different tools.

I CAN PLAY!

I CAN PLAY!

PE WITH YEAR 3

Our Year 3 learners have been working on their Cooperative personal goal this week in PE with Mr Greg.

YEAR 5 MATHS

LET'S HEAR IT FOR THE LSAS!

Our Learning Support Assistants: LSAs are such an integral part of the iCAN team. There's nothing they can't do and they always go above and beyond to help our learners. Thank you for everything you do!

COMING UP ...

Week 2: Wednesday 28th October- Digital Wellbeing Coffee Morning

-

Week 3: Thursday 5th November- Family Learning Day

UPDATES...

Year 5 Family meeting on Thursday 29th October at 4pm in the MP3 space- just for adults

MP3 families, please ensure that the remaining payment of $145 for the residential has been made.

OUR STARS THIS WEEK

I have been so resilient and have been joining in with all the activities with enthusiasm and learning to share the toys with other learners in the class

I have been a brilliant thinker in phonics and have been working hard to blend the sounds and learning to write the letter sounds!

I have been a risk-taker and a great communicator. I challenge myself by trying the more difficult texts and am growing into a confident reader.

I have been a fantastic communicator in Literacy and have been showing wonderful cooperation and principled behaviour in maths by playing fairly and helping my partner during maths games.

I have been respectful and caring and have been encouraging others to make good choices especially during transitions to specialists. I always help others and boost their confidence.

I have been a principled and resilient learner this week! My effort and positive attitude towards learning has been exemplary. I have also shown a positive and mature approach to solving problems, both in the classroom and out in the garden.

I have been a thinker in maths and have shown great resilience when building my skills. My growth mindset and positive attitude has been inspiring.

I have been a fantastic inquirer. My knack for seeking deeper meanings and making clever connections brings so much wonder, joy, and curiosity to our classroom!
