LB2 WEEK 2

MP2 -EXIT POINT

Thank you to our wonderful families for joining us during MP2's Exit Point to celebrate the end of their unit, Footprints from the Past. We hope you saw how much incredible learning had taken place over the previous ten weeks and that you learnt some new things all about dinosaurs!

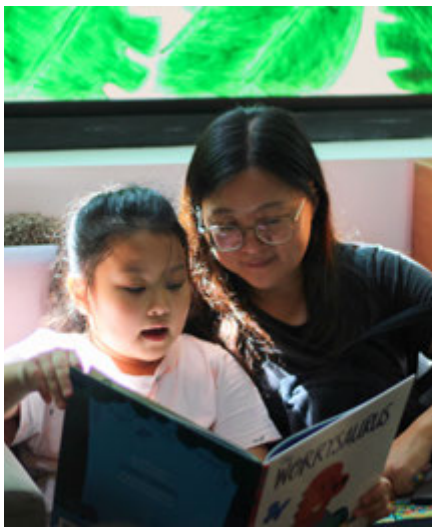

YEAR 6 PE

Year 6 always start their week with an active PE session first thing Monday morning. This week they were working on throwing and catching, making sure to create space as they travelled across the court.

ACTIVE MATHS!

Year 3 have been working hard to memorise their 4 times table facts. Movement and games help with memory recall. They were risk takers trying this new times table hopscotch game!

EARLY YEARS

Our older learners start each day with a morning meeting where they are learning to share and listen to each other's feelings and needs. They are learning to be such clear communicators!

Maths learning this week has been all about shapes! Learners have been identifying 2D shapes, looking closely at their properties whilst making patterns and shapes.

COOPERATIVE LEARNING

Learning is better when it's done together! Year 6 used cooperative team work during many different lessons this week. Here they are in Wellbeing and Science working collaboratively to meet their goals.

TREASURE ISLAND

Yo ho ho! It's a Pirate's life for MP1 this learning block! This week they had an amazing pirate party as the Entry Point to their new unit. Over the next few weeks, learners will be developing map skills, learning about trade around the world and so much more!

GUIDED READING

MATERIAL WORLD ENTRY POINT

MP2 were curious investigators when making two strange and interesting materials: slime and ooblek! They wondered about how when we combined certain ingredients, why the new materials behave the way they do. What wonderful enquirers they were!

ANIMAL TEAMS

On Thursday our learners got together in their animal teams to create and practise new team chants in readiness for our upcoming Celebration of Physical Activity event in December. The chants took inspiration (and accompanying actions!) from their animals' qualities. We look forward to performing these at COPA!

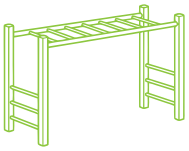

COMING UP ...

Week 3:
Tuesday 3rd November
Come and Play day at iCP
-
Thursday 5th November
Family Learning Day
-
Week 4: Thursday 12th November
Year 5 Celebration of Learning

UPDATES...

We love that your children want to play in the main site garden after school but from 2:20pm to 2:45pm they must be supervised by their parent/ carer as our team are in classes teaching. Thank you for your understanding.

OUR STARS THIS WEEK

I have been a kind and respectful friend who plays nicely with others.

I have been a brilliant communicator when reading books this week.

I have been showing resilience in my learning. I am determined to develop my reading and writing skills and keep trying my best. I always make thoughtful choices

I have been showing incredible resilience and being principled in my learning. I took great pride in creating my poem, posters and safety cards, producing fantastic learning

I have been a principled and adaptable learner. I always try my best even when things change or it is not my favourite learning.

I have been a **Learner Who Loves to Learn!** I always challenge myself to be the best I can be. My fantastic area work in maths this week is a wonderful example of my enthusiasm and commitment to learning.

I have been showing that I can work cooperatively with my learning partner.

Keep showing you are cooperative and respectful with your friends.

I have been such a resilient learner. Whenever I face a challenge, I stay positive, keep trying, and always find creative new ways to solve the problem.
