LB2 WEEK 3

ANYTHING BUT A BAG DAY

As part of their Learning Journey, MP2 were asked to bring their belongings to school in anything...but not a bag! This led to scientific enquiry about the practical uses of different materials, shapes and designs.

COME AND PLAY DAY

Thank you to our Early Years families for joining us for our Come and Play day. It was wonderful seeing you join in with learning and exploring down at iCAN Play!

FAMILY LEARNING DAY

Thank you, families, for being such great learners and for getting involved in a range of different lessons. The learners loved seeing you being risk takers and trying new things. We hope you enjoyed your learning at iCAN!

SWIMMING

Year 1 are making such amazing progress with their swimming! They are growing in confidence each week, developing their skills and becoming more comfortable in the water. This week they were focusing on their arm pulls and their leg kicks.

COMING UP ...

Week 4: Thursday 12th November
Year 5 Celebration of Learning

Week 5: Monday 16th November
No school for learners

Thursday 19th and Friday 20th November
Maths Days!

UPDATES...

Join Ms Abbey on Wednesday 18th November for a Maths focused Family Coffee Morning at 7:45am

OUR STARS THIS WEEK

I have been showing wonderful resilience and adaptability, especially when joining in for story and song time.

I have been so resilient and adaptable by being a fantastic helper with the breathing exercises before happily joining in with story and song time.

I have been a fantastic enquirer and a cooperative learner. I showed great interest in exploring maps and spotting different countries.

I have been a fantastic cooperator in Maths, working with my partner to solve two-digit addition and subtraction problems. I created some super persuasive advert designs in Literacy.

I have been a communicator when always encouraging others, especially in my table team. I make sure everyone feels welcomed and included!

I have been a super scientist! My enquiring skills have been excellent this week, and my enthusiasm for scientific discovery has really shone through.

I have been cooperative and respectful. I lead by example in my team by supporting others and sharing your ideas in a respectful and calm way.

I have been such a cooperative and resilient learner. I never let mistakes hold me back, and my constant care and support makes our classroom a wonderful place to be.
